General Information and Philosophy:

Players will be developed according to MYS Player Development Curriculum and Model defined by McLean Technical Directors and Age Group Directors. Focus on technical player development emphasizing all aspects of the game involving age appropriate Technical, Tactical, Physical and Psychosocial components. MYS objective is to develop players with technical quality, soccer IQ, work ethic and passion for the game. MYS Coaches provide players with quality training sessions, competitive tournaments and league play, and strive to create an environment where players take ownership of their development. Players will be encouraged to experiment, be creative and learn through competition. Read more about the League by visiting
